### Message from the Guest Editors

In the last decades, research and construction industry focuses on energy efficiency and carbon dioxide emissions reduction. By definition, an energy efficient building aims at minimizing its energy demand and maximizing its renewable energy sources (RES) harvesting. However, in a user-centered vision, its most important goal is guaranteeing as much as possible the occupants' well-being, comfort and health while being energy efficient. ....

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
