### Message from the Guest Editors

Specifically, we ask for scientific contributions that provide help in understanding the foundations, dynamics, and outcomes of adopting sustainable entrepreneurship, innovative approaches, and management practices in both small and large organizations (family and non-family businesses), together with how this affects the well-being and economic prosperity of society in the short and long term.

While we encourage papers focused on the following themes, the following relevant topics are also welcome:

- Barriers to sustainable business model innovations;
- Factors that promote sustainable entrepreneurship and innovation;
- Values and entrepreneurship in a sustainable society;
- The promotion and support of sustainable innovation and entrepreneurship in developing economies;
- Key factors for more efficient and responsible use of natural resources;
- The impact of sustainable practices and innovation on economic performance;
- Artificial intelligence and communication technology adoption and innovation for sustainable entrepreneurship;
- Business model innovation and sustainability;
- Differences in strategies and approaches for sustainable entrepreneurship between large and small businesses etc...
