Department of Logistics, Faculty of Management, Czestochowa University of Technology, Dabrowskiego Str. 69, 42-201 Czestochowa, Poland

Deadline for manuscript submissions:

1 June 2025

Message from the Guest Editors

We are preparing a Special Issue with the aim of systematizing knowledge in the field of practical application and the importance of innovative solutions in the economic and social areas. We propose that this Special Issue should constitute a knowledge base regarding the basic concepts of Corporate social responsibility—CSR, formulating the important role of property management and managers in the context of corporate social responsibility, smart governance, smart economy, and smart cities.

We will offer a scientific discussion covering the following topics: the social and pro-ecological responsibility of the manager, and the principles of intelligent property management and intelligent economy. Important aspects of urban development include the introduction of the principles of smart cities to intelligent construction; the possibility of large-scale implementation of innovative zero-emission energy generation technologies for the needs of society. An important aspect of the discussion in this Special Issue will be the analysis of the possibility of using BIM technology in construction and real-estate management.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
