Message from the Guest Editors

Dear Colleagues,

Food security is challenging research area that needs to progress at a rapid pace to achieve the Sustainable Development Goals (SDGs) by 2030. The onset of COVID-19 remarkably changed the dynamics of food production and the food supply chain, as well as the overall management of food around the globe. Agriculture forecasting tools need to be designed to take into account the effect of the pandemic, as well as the issues of food security and access. Agricultural distribution networks need to be designed using new analytical and simulating tools to control fluctuations in prices, affordability, and access. All contemporary issues in food and nutrition sciences must be linked with the concept of sustainability to achieve the SDGs, especially the goal of zero hunger. This Special Issue is dedicated to the impact of COVID-19 on Sustainable Global Agriculture, focussing mainly on technical studies on crop and animal production, the marketing and value addition of agricultural produce, and technical perspectives on boosting immunity through enriched foods.

We look forward to receiving your contributions

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
