Message from the Guest Editor

The aim of this Special Issue is to provide an opportunity to develop research on recent developments in nonfinancial reporting. In 2014, the European Union (EU) issued Directive (2014/95/EU) that required entities with over 500 employees (listed companies, banks, and insurance companies) to disclose nonfinancial information. In 2018, these companies issued the first annual reports in accordance with this Directive. In March 2018, the Commission published an action plan on financing for sustainable growth. The aim of this plan was to reorient capital towards sustainable investment, manage financial risks arising from climate change and other environmental and social problems. Additionally, integrated reporting proposed by the International Integrated Reporting Committee (IIRC) has grown significantly over the last decade. Other entities such as the Global Reporting Initiative (GRI), the Climate Disclosure Standards Board (CDSB), and the Sustainability Accounting Standards Board (SASB) have issued guidelines that aim to improve sustainability disclosures. Thus, this Special Issue aims to publish research that deals with sustainability reporting and its developments in recent years.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
