

Characteristics, Health Risk Assessment and Sustainable Management of Air Pollutants in Asia

Guest Editors:

Prof. Dr. Fei Li

Research Center for Environment and Health, Zhongnan University of Economics and Law, Wuhan 430073, China

Prof. Dr. Dingyi Wang

Department of Physics, University of New Brunswick, Fredericton, NB E3B 5A3, Canada

Prof. Dr. Hongtao Yi

John Glenn College of Public Affairs, The Ohio State University, Columbus, OH 43210, USA

Deadline for manuscript submissions:

closed (31 August 2023)

Message from the Guest Editors

This Special Issue is open to articles on the air pollution monitoring, air quality and health risk assessment, and sustainable risk management systems, with a special focus on particulate matter, including ultrafine particles that have special physical and chemical properties, even if toxicological evidence has not yet been fully established in human studies. We welcome papers on Asian pollution monitoring, exposure analysis, epidemiology, toxicology, and risk assessment, focusing specifically on the processes affecting the hazards of ultrafine particles on human health. Research papers, analytical reviews, case studies, conceptual frameworks, and policy-relevant articles are solicited. The Guest Editors will select high-quality research to proceed with blind peer review. Reviewers will be selected from researchers active in the field, whose works are present in international databases.

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
