Intelligent Sustainable Technology for Construction, the Civil Sector, and Infrastructure

Guest Editors:

Prof. Dr. Son Kiyoung

School of Architectural Engineering, University of Ulsan, Ulsan 44610, Korea

Dr. Sangyong Kim

School of Architecture, Yeungnam University, Gyeongsan, Korea

Prof. Dr. Dong-Eun Lee

School of Architecture, Civil, Environmental and Energy Engineering, Kyungpook National University, Daegu 41566, Republic of Korea

Deadline for manuscript submissions:

closed (15 July 2021)

Message from the Guest Editors

Dear Colleagues,

The Special Issue aims to encourage the research and practical community to introduce innovative methods, technologies, and techniques to construction, the civil sector, and infrastructure. The SPECIAL ISSUE may contribute to the dissemination of 4.0 industrial revolution technologies to the academic and the practical community involved in construction, the civil sector, and infrastructure, hence assuring sustainability in the profession. The Editorial Board encourages you to submit academic and practical papers. including case studies. Papers may include the application of 4.0 industrial revolution technologies to the construction, civil sector, and infrastructure community enhancing sustainability.

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
