### Message from the Guest Editors

The objective of this Special Issue is to contribute to the advancement of knowledge about the adoption of cleaner production practices across different business sectors in industrial and service production and its contribution to the SDGs from a holistic perspective. This Special Issue will bring together recent research work addressing the transformation of business practice associated with the adoption of cleaner production, offering a fresh view on the enablers and the contexts of adoption, documenting the transformation of business processes, product specifications and value models, and exploring the effective implications for multiple SDGs. Research work that explores how diverse social stakeholders, including governments, private companies, academic institutions, and other organizations are engaging the development of sustainable infrastructure, technologies, and processes to advance sustainable transformation are welcome.
