submissions:

**closed (31 May 2021)**

### Message from the Guest Editors

Dear Colleagues,

The ability to live, work, and relax on coasts and beaches continues to expand societal development across the globe. Concurrently, fundamental changes in social-ecological systems related to marine realms urge societies to improve their practices of managing coastal and marine regions in a sustainable way. This is also an ambitious task for transdisciplinary researchers of the world-wide scientific community.

The Special Issue collates contributions on innovations and frontiers in research on systems, developments, and practices in coastal and marine regions all over the “Seven Seas”. Emphasis is given to papers that have clear potential in supporting societies at different scales to make progress in defining strategies and implementing schemes in integrated coastal management, marine/maritime spatial planning, and ocean governance.

We encourage submissions that are likely to tackle the lock-ins of current management practices and to provide crucial pieces of knowledge or adequate support tools.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
