Message from the Guest Editor

Construction products assessment and sustainability is a complex, challenging, and still not fully defined issue. Building materials consume vast amounts of natural resources and generate a significant amount of waste. Thus, it is crucial to have verified information about the environmental consequences of their production, use, and recycling.

A Special Issue of Sustainability dedicated to evaluating construction products in terms of sustainability is an important initiative. I invite everyone interested in assessing construction products in the field of environmental impact to submit their work for publication in this Special Issue of Sustainability.

Keywords

- construction products
- sustainability
- assessment and verification of constancy of performance (AVCP)
- environmental impact
- life-cycle assessment (LCA)
- assessment methods
- environmental performance
- environmental performance assessment
- environmental product declaration (EPD)
- global warming potential (GWP)
- natural resources

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
