

Contribution to the Circular Economy Through the Reuse of Material Waste and Energy Use in Industrial Processes and Domestic Uses

Guest Editors:

Dr. Juan Jose Galan

Departemnt of Naval and Industrial Engineering Faculty of Civil Engineering, University of A Coruña, 15008 A Coruña, Spain

Dr. Ana R. Pasandín

Department of Civil Engineering, School of Civil Engineering, University of A Coruña, 15008 A Coruña, Spain

Deadline for manuscript submissions:

closed (30 September 2022)

Message from the Guest Editors

The energy dependence of our societies should also be the object of analysis and study. It is not only necessary to save individual energy, but to be able to develop mechanisms that allow implementing a use which is less harmful to the environment.

For This purpose, this Special Issue shall gather contributions that help to develop new uses for recycled materials, such as construction and demolition waste, plastics and polymers, agroforestry waste, and pavement waste. Likewise, studies on energy efficiency and new industrial developments that imply lower processing costs are also of interest.

In recent years, circular economy studies have experienced a considerable boom, so this Special Issue will also incorporate work in this field.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
