Message from the Guest Editor

Dear Colleagues,

Management information and control systems (MICS) can facilitate organizations move forward by aligning both sustainable and growth targets simultaneously, since MICS provide management information to support decision-making and direct employee activities or behavior toward organizational goals.

The objective of this Special Issue is to examine the role of management information and control systems in facilitating and managing sustainability issues in organizations. Empirical studies using different methodologies and theoretical perspectives are welcome.

For further reading, please visit the [Special Issue website](#).

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
