Cooperative Challenges for Sustainable Development of Enterprises in the Era of the Fourth Industrial Revolution

Guest Editors:

Dr. Sebastian Saniuk

Department of Engineering Management and Logistic Systems, Faculty of Economics and Management, University of Zielona Góra, 65-417 Zielona Góra, Poland

Dr. Sandra Grabowska

Department of Production Engineering, Silesian University of Technology, Katowice, Poland

Deadline for manuscript submissions:

closed (28 February 2023)

Message from the Guest Editors

The Fourth Industrial Revolution is stimulating the advance of science and technology for cyber-physical system (CPS) development. New information and communication technologies (ICT) have changed the modus operandi, allowing enterprises to cross-organizational and territorial boundaries and realize network cooperation, increased agility, intelligence, and a higher level of sustainable development.

Technological change has gained strategic importance in the thinking and actions of many market players, while also permeating all links in the value chain and the way they are linked, changing the extent of competition and the way consumer needs are met. Strong competition and growing customer expectations in today's market have led to an increase in demand for personalized production, i.e., the production of products better suited to individual customer needs. At the same time, the price of the product should be similar to the price of products manufactured in series production.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
