Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Sustainability* will address topics relevant to the agri-food sector, from targeted measures in specific production chain processes to more integrated solutions aimed at organizational changes throughout the entire value chain. Articles that assess the sustainability implications (agronomic, environmental, nutritional, economic, and social impacts or benefits) of the implementation of such technologies and innovations are also encouraged. This Special Issue welcomes original research articles and review articles, as well as theoretical and experimental research articles.

The main research topics include:

- Sustainable agriculture and agroecology
- Sustainable natural resource management
- Sustainable food supply chain technologies or management
- Environmental, social, and economic benefits
- Landscape protection
- Land use planning for sustainable agriculture
- Planning for sustainable food systems
- Sustainable food production and transformation
- Bio-economy and circular economy
- Sustainable business model innovation
- Agricultural policies
- Rural development
- Food security
