Deadline for manuscript submissions:
closed (15 December 2021)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a better comparison and assessment of the application potentials of construction and demolition waste in building materials. In particular, the topics of interest include, but are not limited to, the following aspects:

- (a) Physical, chemical, mechanical, and durability properties of C&DW aggregates, fillers, and cementitious materials;
- (b) Classification and processing techniques for C&DW;
- (c) Design of concrete and mortar mixes using C&DW;
- (d) Life cycle assessment of construction materials using C&DW;
- (e) Novel applications of C&DW.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
