Deadline for manuscript submissions:
closed (15 December 2021)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a better comparison and assessment of the application potentials of construction and demolition waste in building materials. In particular, the topics of interest include, but are not limited to, the following aspects:

- (a) Physical, chemical, mechanical, and durability properties of C&DW aggregates, fillers, and cementitious materials;
- (b) Classification and processing techniques for C&DW;
- (c) Design of concrete and mortar mixes using C&DW;
- (d) Life cycle assessment of construction materials using C&DW;
- (e) Novel applications of C&DW.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
