Deadline for manuscript  
submissions:

**closed (31 July 2021)**

### Message from the Guest Editor

This Special Issue welcomes methodological as well as applied contributions. In addition to expanding the theory related to DEA, including its interaction with other production planning techniques, we are interested in implementing the new proposals in different applied areas and sectors. Among them, we consider, but are not limited to, the challenges relating to sustainability, the socioeconomic, scientific, and integrated approaches to sustainable development and other topics related to sustainability (measuring sustainability, sustainability tools, applications of sustainability, etc.). Thus, the issue will focus on the proposal of methodological developments in the areas of measuring efficiency and evaluating productivity change over time. Our main aim is to improve the level of reliability and applicability of the actual efficiency indexes.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
