Message from the Guest Editors

Dear Colleagues,

Sustainability could be understood as the results' duration and persistence over time. Indeed, sustainability in this smart city context is not only about the natural environment but also includes economic, political, and social aspects, as well as their results in the long term.

This Special Issue of Sustainability entitled "Building Smart and Sustainable Cities: Emerging Technologies and Innovation for Digital-Era Governance and Long-Term Impacts" attempts to address a research need in terms of studies focusing on the (ecological, economic, social, and political) sustainability of smart cities. Accordingly, the Special Issue invites original, novel, and high-quality papers that advance our current understanding of smart and sustainable cities, including the role of emerging technologies and innovation in long-term urban governance. We welcome manuscripts encompassing conceptual approaches, theoretical frameworks, empirical research, and case studies of cities from all around the globe.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
