Message from the Guest Editors

Dear Colleagues,

This Special Issue of the journal will focus on the connection that exists between digital communities, sustainability, and citizen science. The three way relationships between people, places (digital or physical) and means (tools) will be questioned and brought to the forefront.

Digital culture and communities will be brought to the forefront in this Special Issue. At the heart of the digital transformation is that of representation of the person and the people, their values, and the reasons why we do what we do. We aim to call for work that examines techniques like digitally supported alternative modes of collaboration and commerce for planetary care and custodianship.

It is because there is considerable uncertainty and lack of direction about what digital innovation means for people's lives and those of future generations that we invite a Special Issue of the Sustainability journal exploring, through applied and theoretical constructs, the people, the places, and the means by which digital communities interact to create a sustainable future.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
