submissions:

**closed (30 June 2022)**

### Message from the Guest Editors

This Special Issue of Sustainability aims to reflect on the current role that energy transition and environmental emergencies to attain sustainable economic growth, mainly through the nexus among energy, environment and economic growth. Without discarding this main objective, this Special Issue also aims to highlight the impacts of energy efficiency and environmental friendly policies not only on sustainable economic growth, but also to extend its consequences on social, health and sustainability issues.

### Keywords

- energy economics
- environmental economics
- sustainable development
- economic growth
- pollution hypothesis
- industrialization
- urbanization
- governance

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits
