Message from the Guest Editors

This Special Issue of Sustainability aims to reflect on the current role that energy transition and environmental emergencies to attain sustainable economic growth, mainly through the nexus among energy, environment and economic growth. Without discarding this main objective, this Special Issue also aims to highlight the impacts of energy efficiency and environmental friendly policies not only on sustainable economic growth, but also to extend its consequences on social, health and sustainability issues.

Keywords

- energy economics
- environmental economics
- sustainable development
- economic growth
- pollution hypothesis
- industrialization
- urbanization
