

Power Grids' Future Perspective in the Mainstream E-mobility Era and under the Umbrella of Sustainable Development

Guest Editors:

Dr. Mikael Ahmadi

Graduate School of Engineering and Science, University of the Ryukyus, Nishihara, Okinawa 903-0213, Japan

Dr. Mir Sayed Shah Danish

Energy Systems (Chubu Electric Power) Funded Research Division, IMaSS (Institute of Materials and Systems for Sustainability), Nagoya University, Nagoya, Japan

Deadline for manuscript submissions:

closed (31 December 2023)

Message from the Guest Editors

This SI welcomes original research and review papers on, but not limited to, the following themes :

1. Optimizations and energy management towards sustainable power grids;
2. Integrating renewable energy sources into power systems for a sustainable environment;
3. Optimal operation and control of power distribution networks in presence of EVs;
4. Environmental impacts of transportation electrification;
5. Evaluation methods for electrified transportation systems;
6. Electric vehicle charging infrastructure planning;
7. Urban transport electrification and energy consumption;
8. New transport systems concepts and future perspectives;
9. Electric vehicles and the environment;
10. Theoretical developments in the planning and operation of sustainable EVs;
11. Energy storage devices for sustainable EVs' demand;
12. Energy infrastructure for electrical transportation;
13. Modeling and analysis of modern and future sustainable electric vehicles energy systems;
14. Smart energy management in electric vehicles for energy saving;
15. Energy savings through optimized EV charging in bidirectional energy flow V2G and G2V.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
