30 September 2026

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to explore the challenges and opportunities associated with the recovery, valorization, and development of new foods from food waste.

The following topics of the research work are the following: Sustainable food systems and waste management by focusing specifically on the recovery, valorization, and development of new foods from food waste;

Food waste reduction and recycling, innovative approaches to utilizing food waste as a valuable resource in food production;

Offer fresh perspectives, novel insights, and practical solutions to enhancing the sustainability of the agri-food sector;

The comprehensive overview of current state-of-the-art technologies, regulatory frameworks, and consumer attitudes regarding the utilization of food waste.

USA

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
