Message from the Guest Editors

Sustainable event management requires all relevant stakeholders' informed participation and strong leadership to ensure broad participation and consensus building. Achieving sustainable event building is a continuous process that requires constant monitoring of impacts, introducing the necessary preventive and/or corrective measures whenever necessary. We welcome contributions focused on:

- Environmental attitudes, knowledge, intentions, and behaviors among leisure events' organizers, attendees, and spectators;
- Free-plastic leisure events;
- Ecolabeling and certification at leisure events;
- Environmental innovation at leisure events;
- Green (sport) events.
