# Ecological Utilization of Industrial Wastes

Guest Editors:

**Prof. Dr. Liyun Yang**
Department of Ecological Science and Engineering, School of Metallurgical and Ecological Engineering, University of Science and Technology Beijing, Beijing 100083, China

**Prof. Dr. Tetsuya Nagasaka**
Department of Metallurgy, Graduate School of Engineering, Tohoku university, Sendai 980-7579, Japan

**Prof. Dr. Hao Bai**
Department of Ecological Science and Engineering, School of Metallurgical and Ecological Engineering, University of Science and Technology Beijing, Beijing 100083, China

## Message from the Guest Editors

The aim of this Special Issue is to focus on new methods for the ecological utilization of industrial solid waste, studying waste characteristics and the synthetic mechanism of environmental remediation agents using waste as a raw material, investigating the treatment efficiency and mechanism of waste applied to contaminated water, soil and gas, reviewing ecological factor changes after waste is applied to the environment, and researching waste management and novel evaluation models of waste application processes. Thus, the Issue will provide a theoretical foundation for the realization of industrial solid waste as environmental treatment materials and practical industrial production applications. The contribution of papers regarding the in situ ecological utilization of industrial solid waste are highly encouraged.

Deadline for manuscript submissions:
**closed (1 May 2023)**

## Editor-in-Chief

**Prof. Dr. Marc A. Rosen**
Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.
**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
