Message from the Guest Editors

Dear Colleagues,

In this Special Issue, original research articles and reviews are welcome. Research areas of interest may include (but are not limited to) the following:

- Economic impact evaluation of COVID-19 and epidemic prevention and control measures on different cities, regions or nations
- Impacts of COVID-19 on low-carbon economic transition and regional green economy development
- Innovation of disaster impact analysis models (e.g., input–output model, general equilibrium, econometric regression, big data techniques and synthetic models)
- The restructuring effects of COVID-19 on national, regional or global supply (or value) chains and the potential effects of value chain restructuring on regional development
- Political and economic instruments (e.g., tax reduction, consumption incentive, monetary policy) adopted by local and national administrations to mitigate economic losses
- The COVID-19 shock on supply chain resilience and the development of strategies for promoting higher supply chain resilience
