Dr. Jiaming Wu

Deadline for manuscript submissions: closed (31 March 2022)

The revolutionary development of sustainable transportation and vehicles brings great opportunities and challenges to improve the safety, throughput, and energy efficiency of transport systems. Effective design and analysis of smart vehicles and transportation systems depend on various technical, operational, and political factors, and require multi-disciplinary and novel techniques. Intelligent vehicles and transportation systems are mutually dependent. Therefore, new algorithms, sustainable system designs, and analysis tools have become a significant area of research, with emerging techniques. The overall objective of this Special Issue is to collect innovative contributions to the application of advanced techniaues in sustainable. intelligent. cooperative vehicle-infrastructure transportation systems. Proposed papers for this Special Issue may cover a broad range of vehicle control, vehicle energy management, intelligent system design, modeling and analysis. connected and automated vehicle, transportation system proactive control, and artificial intelligence applications, as long as the focus is on emerging techniques for sustainable transportation systems.

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
