Message from the Guest Editors

Dear Colleagues,

For a paradigm shift toward sustainability to take place, it is necessary to address numerous issues at the same time. This Special Issue provides an opportunity to understand the theoretical and empirical mechanisms explaining the links between energy transition, environmental sustainability, and climate-inclusive growth.

In this Special Issue, original research articles and reviews are welcome. Research themes may include (but are not limited to) the following:

- Conceptualizing energy transition pathways;
- Interlinking energy transition and climate-inclusive growth;
- Environmental sustainability-economic growth trade-offs;
- Climate inclusivity and net-zero emissions agenda;
- Renewable and energy-efficient solutions for low-carbon economies;
- Technological advancement and emissions mitigation strategies;
- Energy rebound effect and environmental sustainability;
- Climate-inclusive business models and sustainability;
- Policies and incentive structure driving climate-inclusive growth.

We look forward to receiving your contributions.
