Message from the Guest Editors

Dear Colleagues,

Following a dynamic workshop on enterprise and innovation in Higher Education as part of the United Nations Educational, Scientific and Cultural Organization (UNESCO) Chair on Responsible Foresight for Sustainable Development, i.e., the UNESCO Futures Literacy Summit, 8–10 December 2020, the sustainability imperative of higher education is back on the table. The focal concern of the future of Higher Education Institutions (HEIs), especially in developing, transitional and emerging markets, requires further interrogation and especially so in the context of SDG 4 (Quality Education). In the last two years, there have been half a dozen books on entrepreneurial universities and numerous others on higher education in a post-COVID-19 era. However, we cannot pontificate on post-COVID-19, as the pandemic is not going anywhere in a hurry. Furthermore, the conversation of preparing graduates for the workplace i.e., employability, may be missing the point entirely, especially for those aspiring towards self-employment. This Special Issue, therefore, seeks to unpack these misconceptions with a view to articulating what sustainability really means for higher education.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
