Message from the Guest Editors

The Special Issue “Dealing with environmental conflicts” calls for contributions that address how we can better understand the environmental conflict management and resolution. Contributors have to consider global, regional and local scale, and they are welcome to examine the drivers and/or proposing concrete solutions for environmental conflicts resolution.

Of particular interest are papers that (i) point out the conflictual dimension of different new societal tasks; (ii) present local and regional experience related with environmental conflicts; (iii) propose different innovative methods to understand environmental conflicts; (iv) demonstrate solutions that are scalable, transferable, and/or can be tailored to specific local or issue-dependent needs in their implementation, and (v) provide a better understanding of social and economic dimension of environmental conflicts.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
