

## Climate Change, Air Pollution and Environmental Health

Guest Editors:

**Dr. Sylvester Dodzi Nyadanu**

School of Population Health,  
Curtin University, Perth, Kent  
Street, Bentley, WA 6102,  
Australia

**Dr. Marina Oktapodas Feiler**

Department of Epidemiology and  
Environmental Health, School of  
Public Health and Health  
Professions, University at Buffalo,  
192 Farber Hall, South Campus,  
Buffalo, NY, USA

Deadline for manuscript  
submissions:

**20 August 2025**

### Message from the Guest Editors

A deeper understanding of the complex interplay between the changing climate, air pollution, and health outcomes to decipher the causal pathways and interventions are essential to saving the climate and promoting healthy present and future generations. Hence this Special Issue calls for submissions from multidisciplinary researchers across the globe to contribute their novel and groundbreaking findings to expand our knowledge and interventional approaches on this critical topic. Exposure–outcome associations, biological mechanisms, and related interventional studies on air pollution and climate change-associated events such as extreme temperatures (e.g., heatwaves and cold spells), droughts, cyclones, hurricanes, floods, and wildfires (bushfires) and their impacts on human health are invited. Original research articles, review articles, and short communications or brief research reports are invited.

### Keywords

- temperature
- heatwaves
- cold spells
- air pollutants
- wildfires
- natural disasters
- public health
- health effects
- epidemiology
- climate policies

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
