Deadline for manuscript submissions:

closed (30 September 2020)

Message from the Guest Editors

The influence of institutional quality on the economic environment has been long acknowledged by researchers, notably as a main driver of foreign direct investment (FDI). Despite the abundant literature, the majority of papers analyze advanced and emerging economies either separately or without making a distinction between them. Unfortunately, it is not yet fully understood how the influence of institutional quality varies across contexts. In particular, the idiosyncrasies of emerging economies—typically characterized not only by institutional voids, higher corruption and political risk, and lower financial development, but also by recent higher economic growth—make these countries likely to differ from advanced economies.

The goal of this Special Issue is to expand the existing literature on these themes, by offering new insights and future perspectives about the differences in the relationship between FDI and institutional quality in these two different contexts and the potential repercussions in terms of sustainability for the countries in question.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
