Message from the Guest Editors

Dear Colleagues,

Currently, climate change is dramatically impacting natural resources and the environment at an ever-unprecedented rate across the world. Low precipitation combined with higher temperatures has consequently led to extreme natural disasters, including drought, deforestation, flood, soil erosion, desertification, etc. Outlining and understanding how climate change affects the Earth's ecosystems can enable us to provide coherent and sustainable support for policymakers and decision-makers to develop adequate strategies towards the achievement of the Sustainable Development Goals (SDGs) according to their 13 targets related to combating the effects of climate change.

Authors from different fields are invited to submit original manuscripts on topics including (but not limited to):

- Climate change;
- Environment;
- Natural resources;
- Sustainable Development Goals (SDGs);
- Climate change adaptation;
- Natural disasters;
- Floods;
- Droughts;
- Desertification;
- Deforestation;
- Soil erosion.

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
