Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue on “Food Safety and Quality for Sustainable Development” is aiming to provide the present state of the art and perspectives that support the use of “good microorganisms” (bacteria, fungi, and viruses) to guarantee food safety and quality for sustainable development in agriculture (crops and livestock) and food industries (e.g., cheese factories and wineries). It will also cover the need to rapidly respond to the following challenges: a) How can we reduce the industry’s reliance on pesticides and antibiotics through the use of “good microorganisms”? b) How can we improve food safety and hygiene standards using beneficial microorganisms? c) How can we protect and stimulate plant growth by adopting new microbial-based approaches? d) How can beneficial microbes be incorporated into the “Farm to Fork Strategy”?

The Special Issue welcomes original research and review manuscripts, and the studies should amplify the current knowledge and contribute to shedding light on new strategies for sustainable food production with safety and quality.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
