

Recent Research on Technologies for Renewable Energy and Sustainability

Guest Editors:

**Prof. Dr. Irfan Anjum
Badruddin Magami**

Dr. T. M. Yunus Khan

Dr. Sarfaraz Kamangar

Dr. C. Ahmed Saleel

Deadline for manuscript
submissions:
closed (30 September 2023)

Message from the Guest Editors

The growth in technology has resulted in amazing advancements, and comfort for all living things on the globe. These developments are mostly driven by energy. The push for further growth is constantly increasing, placing significant strain on energy supply. The ever-increasing need for conventional energy, on the other hand, has resulted in irreversible environmental losses, posing a threat to all forms of life. In this context, renewable energy plays a critical role in protecting the earth while still allowing for long-term growth. However, the technologies that are available for this purpose are still in their infancy and require a great deal of attention to continue to evolve.

The goal of this Special Issue is to provide a forum for all scholars to present their discoveries on technological developments in renewable energy and sustainability. It covers a wide range of topics, including all types of renewable energy and environmental sustainability. Prospective authors are encouraged to submit their most recent work on the subject.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
