Message from the Guest Editors

The Special Issue will address low-carbon and zero-energy buildings issues associated with Sustainability. Topics of interest include, but are not limited to the following:

- Carbon reduction as a design initiative in the initial design stage;
- Carbon reduction as a design initiative in detailed design stage;
- Carbon reduction as an initiative in the construction stage;
- Carbon reduction as an initiative in the building operating stage;
- The application of smart technologies for the above 3.1 to 3.4;
- Empirical research targeting human data for intelligent and automated applications;
- A study of how carbon reduction affect and shape user behaviors;
- A study of how carbon reduction is addressed in building codes and performance assessment tools.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
