Deadline for manuscript
submissions:

closed (15 October 2021)

Message from the Guest Editor

This Special Issue of Sustainability focuses on fungal diversity and functions in various environments from natural ecosystems to human-related environments. We encourage all type of studies such as comprehensive reviews, case studies, or research articles. Some of the potential topics include:

- Fungal diversity in various environments (e.g. soil, rhizosphere, bio-aerosol, marine ecosystem, and animal gut)
- Environmental drivers associated with diversity and species assembly patterns
- Anthropogenic impacts on fungal diversity
- The response of fungal physiology or functions following environmental changes
- Enzyme activity
- Function and ecosystem service
- Bioremediation and degradation of pollutions and wastes
- Bio-monitoring and survey methods

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
