Nature Research, Oslo, Norway

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### **Message from the Guest Editors**

This Special Issue aims to discuss the role nature and Nature-based Solutions (NbS) can play towards urban sustainability.

We invite you to contribute to this issue by submitting research articles or comprehensive reviews from all disciplines, including, but are not limited to **i)** Case studies and existing projects illustrating how nature and NbS contribute to improving health and well-being in cities; **ii)** Outline the future potential of nature and NbS and the role it can play in the perspective of urban sustainability; **iii)** Analyze good practice of nature and NbS linking biodiversity and climate change strategies in cities; and **iv)** showcase the benefits of nature and NbS during the Covid-19 pandemic.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
