School of Geosciences and Info-Physics, Central South University, Changsha 410083, China

Dr. Yijiang Zhao

School of Computer Science and Engineering, Hunan University of Science and Technology, Xiangtan 411201, China

Dr. Fei Chen

School of Surveying and Mapping, East China University of Technology, Nanchang 330013, China

Deadline for manuscript submissions:

closed (30 December 2023)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, research areas may include (but are not limited to) the following topics:

- Modelling and analysing urban phenomena;
- The monitoring and assessment of SDG 11: sustainable cities and communities;
- Reliability evaluation methods for urban information;
- Spatiotemporal urban data model;
- Updating the urban database;
- Visualization methods for urban data;
- Analytical and quantitative methods for urban phenomena;
- AI applied to Earth Observation and geospatial data for urban studies;
- Simulation models and techniques for urban analysis;
- Urban data quality and uncertainty;
- Algorithms and methods for deriving geospatial essential variables for SDGs;
- Urban planning issues (community development, zoning, etc.);
- Urban transportation and mobility (airports, subways, etc.);
- Urban consumption and commodities;
- Crowdsourcing-data-enabled urban sustainability;
- Intelligent traffic systems;
- Knowledge graphs.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
