Deadline for manuscript submissions:

**23 June 2024**

### **Message from the Guest Editors**

Dear Colleagues,

The profound transition towards a circular economy has garnered significant attention in recent years as a promising solution with which to address pressing environmental challenges, promote economic prosperity, and enable a sustainable future. However, it is imperative to critically examine the true impact of circular economy strategies and their alignment with planetary boundaries, societal values, and systemic changes. We invite researchers, scholars, practitioners, and policy-makers to contribute to a Special Issue entitled "Sustainable Development of Urban and Environmental Planning for a Circular Society," which aims to delve into the intricate complexities of this transformative journey.

This Special Issue seeks to explore the multifaceted dimensions of transitioning to a circular society, focusing on the intersection of urban and environmental planning, design, and sustainable development. We invite submissions that address the following key questions:

1. Value Shift and Systemic Change ;
2. Land Use Dynamics ;
3. Quintuple Helix Approach ;
4. Data-Driven Environmental Planning ;
5. Operationalizing Circular Models.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
