Message from the Guest Editor

This Special Issue focuses on investments in flexible resources in new-type electric power systems for sustainable development. The purpose of this Special Issue is highly consistent with the scope of *Sustainability*.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

1. The current development and issues of flexible resources investments in new-type electric power systems.
2. Flexible resources evaluation in new-type electric power systems.
3. Flexible resources investments at the power supply side.
4. Flexible resources investments at the power grid side.
5. Flexible resources investments at the power demand side.
6. Coordinate investments for flexible resources at power supply side, power grid side, and power demand side.
7. The market mechanism for flexible resources investment and development.
8. Other related topics.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
