Message from the Guest Editors

This Special Issue comprises papers that explore the multifaceted dimensions of gender equality in relation to sustainable development in rural areas in Africa, Asia, Latin America and The Pacific. This Special Issue attempts to tackle the following questions. How can the use of a gender framework promote individual and household development that is socially, economically and environmentally sustainable? How important are gender transformative approaches? How does the gender perspective fit into agroecological system thinking? What is the role of gender in relation to the search for sustainable solutions to humanitarian crises in rural areas? How do gender dynamics within development projects affect outcomes? How can we promote more equitable development in rural areas that acknowledges the needs and aspirations of both women and men? How do social movements fit within this discussion? What is the role of policy in this debate? And how does the rural–urban divide enhance or reduce gender inequalities?

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
