Arts and Society, Charles Darwin  
University, Darwin 0909, Australia

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

This Special Issue aims to cover issues around the question of how policies and strategies can be designed to take advantage of global commitments in governing climate change and development in the lights of Paris Agreement, Sendai Framework for Disaster Reduction 2030 and Sustainable Development Goals 2030. We are also interested in identifying lessons, methods, tools, approaches, and insights into experimental policy making and institutional design for climate change resilience from around the world. The issue will also cover policy making, institutional design, and architecture of earth system and climate change governance. This edition also welcomes lessons from and reflection on various global and local initiatives of urban climate change adaptation and risk reduction. Lessons from nongovernmental and civil society networks as well as governmental initiatives in managing local environmental change, including carbon management, are also welcome.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
