Finance, Lefke, European
University of Lefke, Northern
Cyprus, TR-10, Mersin, Turkey

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editor

The world is becoming more intensely aware of the critical issues arising from human use of its energy. Energy is a vital commodity that sustains human lives, as well as economic processes. Simultaneously, it is widely accepted that energy use contributes to various environmental challenges, including climate change, fossil fuel resource depletion, and air pollution. Nowadays, energy- and environment-related issues are significant issues that must be considered seriously as a policy and in order to achieve energy and environmental sustainability globally, especially in whole emerging markets. Moreover, both the theoretical and the empirical evidence on the effects of green energy and energy innovation on macroeconomic dynamics are limited. This Special Issue will explore studies concerning the development, assessment, and management of energy and environmental issues. The Special Issue welcomes both qualitative and quantitative studies, as well as empirical and theoretical contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
