**Dr. Chaoan Lai**

### Message from the Collection Editors

Researchers in the fields of industrial economics, industrial engineering, logistics management, and strategic management should consider applying mathematical modeling and empirical analysis to explore the factors that affect green innovation, so as to ensure a win-win situation for both economic and social benefits.

Relevant themes include but are not limited to the following:

- Evaluation of green innovation efficiency and capability;
- Green technology innovation and green development;
- Green innovation and entrepreneurship;
- Green innovation system and strategy research;
- Green innovation and environmental governance;
- Green innovation and green logistics;
- Green innovation and green marketing;
- Green innovation and energy management;
- Green innovation and remanufacturing technology;
- Green innovation and human resource management;
- Digital technology empowerment and green innovation
- Environmental regulation policy and green innovation policy design;
- Influencing factors of corporate green innovation;
- The impact of green innovation on supply chain operations.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
