Message from the Guest Editors

Dear Colleagues,

We are organizing a Special Issue of Sustainability concerning inclusive and energy-efficient building design. Future sustainable built environments need to be equitable, healthy, and energy-efficient to enable people's participation in the community and secure their wellbeing.

This Special Issue aims to showcase research that closes the gap between energy efficiency and inclusivity, and explores the ways an efficient design could benefit the entirety of the human population, especially the most vulnerable groups. We welcome papers on:

energy efficiency in the built environment;
energy-efficient building systems;
climate change;
urban environment sustainability;
urban climate;
mitigation technologies;
wellbeing in the building environment;
sustainable design;
sustainable buildings;
enabling environments;
social inclusion;
user experiences;
inclusive design;
home modifications and assistive technology;
environmental psychology.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
