

Sustainable Chemical Technologies for Industrial Effluent Treatment, Biomass-to-Bioenergy Conversion, and Process Intensification: A Greener Future

Guest Editors:

Dr. José Luiz Francisco Alves

Dr. Rennio F De Sena

**Dr. Jean Constantino Gomes
Da Silva**

Dr. Guilherme Davi Mumbach

Deadline for manuscript
submissions:

17 November 2024

Message from the Guest Editors

1. Sustainable chemical technologies applied to industrial wastewater treatment;
2. Development or enhancement of separation technologies using process intensification strategies;
3. Case studies on intensified separation technologies for efficient and eco-friendly production processes;
4. Strategies for the carbon sequestration and mitigation of greenhouse gas emissions via adopting third-generation biofuels;
5. Case studies on thermochemical technologies for biomass-to-bioenergy conversion;
6. Valorization of agro-industrial residues, forest residues, municipal solid waste, food processing residues, and animal manure for bioenergy and renewable chemicals;
7. Innovations and recent advancements in catalysts employed for energy and environmental applications;
8. Renewable chemicals derived from biomass pyrolysis and their prospects for use in the chemical industry and transportation fuel sector;
9. Life cycle assessment (LCA) of conversion processes for the sustainable production of bioenergy and renewable chemicals from biomass;

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
