Message from the Guest Editors

This Special Issue will comprehensively explore the critical role of carbon reduction technology innovation in the global journey toward carbon neutrality. We will conduct an in-depth analysis of its theoretical foundations, technological pathways, and practical outcomes, adopting a multidisciplinary perspective to systematically examine this global challenge. The key areas of focus include:

Theoretical Foundations and Frontiers of Carbon Reduction Technologies;

Mechanisms and Impacts of Global Carbon Neutrality Policies;

Dynamic Coupling of Industry Transformation and Technological Change;

Applications and Challenges of Carbon Capture and Storage (CCS) Technologies;

Green Finance and Innovative Investment Mechanisms;

Prospects for Innovation Pathways in Global Carbon Neutrality.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
