Deadline for manuscript submissions:

**closed (19 October 2023)**

### Message from the Guest Editors

The current research theme featured within *Sustainability* aims to bring together relevant scientific contributions on carbon dynamics in terrestrial ecosystems (i.e., forest, savanna, agroecosystems) in different terrestrial biomes. We invite contributions on topics including:

- Carbon dynamics in natural and modified ecosystems;
- Pools of and fluxes in carbon in vegetation and soil;
- Soil–plant–microbe interactions and carbon cycling;
- Soil carbon, litter decomposition, and humification;
- Terrestrial carbon cycling and global change.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
