Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editor

Land–ocean–atmosphere phenomenon interactions have tremendous societal impacts on agriculture practices, water resources, hydroclimate, hydrometeorological disasters, and extreme events, as well as health hazards such as the propagation of vector-borne diseases, e.g., dengue, malaria, and insect bites, along with forest fires and biodiversity. The purpose of this Special Issue is to use state-of-the-art techniques to investigate the Indo-Pacific basin-wide impact and publish scientific research on various issues of importance for a sustainable society.

We cordially invite papers on observational and model-based studies on the impact of Indo-Pacific climate variability. Subject areas may include but are not limited to:

- Indo-Pacific climate variability;
- Impact of Indo-Pacific basin warming on agriculture, hydrology, hydroclimate, hydrometeorological disasters, forest ecology, mountain biodiversity, coastal ecosystems, health hazards, etc.;
- Past and future environmental impacts;
- Climate-variability-induced extreme events.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
